Ottone Meloda boasts 60 years of activity as a market leader in the production of taps and mixers for bathroom and kitchen. Founded in 1952 in Pella, Novara province, near Lake Orta, and later moving to nearby San Maurizio D'Opaglio, it was one of the pioneering companies of the "Silicon Valley" of Italian tap-making. In January of 2015 Ottone Meloda is acquired by WTS s.p.a

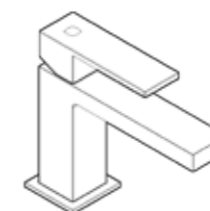

WTS Group stands for the Italian excellence of sanitary taps. The industrial group represents the best brands in the sector, which are Made in Italy but at the same time are projected to the international market.

WTS means: reliability, practice, cutting edge design, and attention to the surrounding environment. The brands that are parts of the group pay serious attention to the quality of the material and to the research of new technologies which allow the production of high-quality items with competitive prices. When it comes to WTS Group, we can identify a family of companies with an Italian heart, which exports abroad its consolidated know-how in terms of production, distribution and strategic alliance in different countries.
